Information and Disclosures

Risks

The portfolio is exposed to equity as well as default and interest rate risks.

Risk Profile

Medium Risk

The portfolio is suitable for medium term investment horizons. The probability of losses is higher than that of a low risk portfolio, but less than a high risk portfolio and moderate long term investment returns are expected.

*Total Expense Ratio (TER)

Please note: A higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. Transaction Costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, the investment decisions of the investment manager and the TER. The underlying portfolios' ratio and cost calculations are based upon their most recent published figures.

*Total Expense Ratio (TER)

1.69%

Of the value of the Fund was incurred as expenses relating to the administration of the Fund.

Transactional Cost (TC)

0.04%

Of the value of the Fund was incurred as costs relating to the buying and selling of the assets underlying the Fund.

Total Investment Charge (TER & TC)

1.73%

Of the value of the Fund was incurred as costs relating to the investment of the Fund.
